Welcome Message,

Dear colleagues ,,

It is with great pleasure and excitement that we extend a warm welcome to each of you for the upcoming 6th Annual International Pedia Mediterranea Conference, taking place in the vibrant city of Jeddah, Saudi Arabia, from February 21st to 25th, 2024.

Jeddah, with its rich history, cultural diversity, and breathtaking coastal beauty, provides a fitting backdrop for our esteemed conference. This dynamic city, situated on the shores of the Red Sea, is a melting pot of tradition and modernity. It is a place where ancient heritage seamlessly coexists with contemporary innovation, offering a truly unique setting for our gathering.

Our conference has evolved into a global platform for pediatric experts dedicated to advancing the field. This year, we are proud to announce our affiliation with the Pediatricians Across Continents Education Academy and collaboration with both the Iraqi and Kurdistan Pediatric Societies, reinforcing our commitment to international collaboration.

The theme of our conference, "Safe Child, Safe Family, Safe Society," resonates deeply with the spirit of Jeddah—a city known for its hospitality, warmth, and commitment to fostering safe and thriving communities. We believe this theme will inspire engaging discussions, innovative ideas, and collaborative efforts that transcend borders.

We are honored to host renowned experts in the field of pediatrics from all corners of the globe, providing a unique opportunity to exchange knowledge against the backdrop of Jeddah's captivating cultural tapestry.

To our esteemed Pediatricians, we invite you to be an integral part of this transformative event. Your knowledge, experience, and insights are crucial in shaping the discourse and contributing to the advancement of pediatric care globally. Join us in Jeddah for an intellectually stimulating, culturally enriching, and professionally rewarding experience.

Our valued partners in the nutrition and pharmaceutical industries, your support has been instrumental in the success of our previous conferences, and we invite you to be a part of this year's impactful event in Jeddah. Your contribution plays a vital role in enabling us to organize a conference that not only meets but exceeds the expectations of our attendees.

We are confident that your participation will not only elevate your brand visibility but also align your company with the noble cause of promoting child safety and well-being. Your support ensures that we can continue to foster an environment conducive to groundbreaking discussions, collaborations, and advancements in pediatric care.

Your presence and partnership contribute to the success of our mission, making a lasting impact on the future of pediatric healthcare. Thank you for your continued support, and we eagerly anticipate your active participation in the 6th Annual International Pedia Mediterranea Conference.

Sincerely,

Prof. Dr. Khalaf Gargary
Conference President

Scientific program

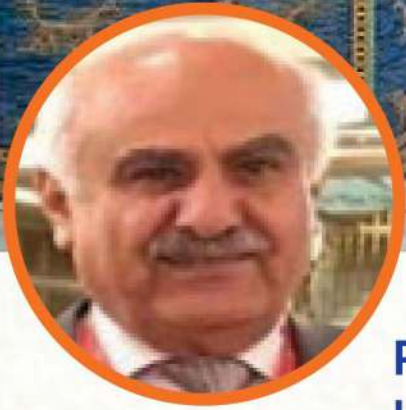

Thursday 22, February 2024

Day 1:		
08:30 - 09 :00		Registration
09:00 - 09:30		Opening Ceromony
First Session : 09:30 – 11:00	Technology, Nutrition, Who benefits most?	
Chairman:	Farman Zandi - Sura Abd Alwahab - Bakr Hussein Alhussaini - Yahya A.Altufaily	
09:30 - 09:50	Technology and New Child Health Interventions	Colleen Kraft, USA
09:50 - 10:10	Assessment of Children with Medical Complexity	Khalid Alyafiai, Qatar
10:10 - 10:30	Symposium	TBD
10:30 - 10:50	 Unleashing Excellence: A New Era in Infant Reflux Management and Innovation	Naglaa Kamal, Egypt
10:50 -11:00	Discussion	
Second Session 11:00 - 12:30	Gastroenterology	
Chairman:	Abdulmoein AlAgha - Dlair chalabi - Nizar Bakir	
11:00 - 11:20	The child with Abdominal pain	Eyad Altamimi, Jordan
11:20 - 11:40	Endoscopic evaluation of GERD in children	Dler Chalabi, Iraq
11:40 -12:00	Non enteropathic gluten sensitivity	Abbas Ribati, Iraq
12:00 - 12:20	 The ultimate generation of infant formula	Saif Ali-Iraq
12:20 -12:30	Discussion	
12:30 - 01:00	COFFEE Break	
Third Session 01:00 - 02:50	Endocrine and Cardiology	
Chairman:	Abbas Ribati - Majeed Jawad - Salah Alwaidi	
01:00 - 01:20	Pediatric growth hormone therapy; what's new?	Abdulmoein Al Agha, KSA
01:20 - 01:40	Dry nights, bright mornings:Unveiling the secrets of enuresis solutions	Wafaa Faisal, UAE
01:40 - 02:00	Hypertension in children and early adolescence what to consider	Soud Abdulaziz Bahaidrah, KSA
02:00 - 02:20	Cardiac complications with post covid kawasaki like presentation in pediatric age groups	Aso Salih, Iraq
02 :20 - 02:40	Common Pathological Pediatric Arrhythmias	Ali Elhalabi, Jordan
02 :40 -02:50	Discussion	
2:50 - 04:00	Lunch break	
Fourth Session 04:00 - 05:10	Pediatric Emergency	
Chairman:	Soud Abdulaziz Bahaidrah - Ali Elhalabi	
04:00 - 04:20	Foreign Body ingestion : Practical management	Bakr Hussein Alhussaini, KSA
04:20 - 04:40	Practical approach to the child with chest pain amd syncope	Majeed Jawad, UK
04:40 - 05:00	Skill arts in the use of point-of-care ultrasound in the pediatric emergency	Menna Farouk- Eygpt
05:00 - 05:10	Discussion	
Fifth Session 05:10 - 06:10	Oral Presentations (research work)	
Chairman:	Zuhair Almosawi - Wafaa Faisal	
05:10 - 05:20	Craniofacial Anomaly Association with the Internal Malformations in the Pediatric Age Group in Al-Fallujah City-Iraq	Basim A. abdelwahab Al-Abdely, Iraq
05:10 - 05:30	Gender Correlation with Sociodemographic and Clinical, Laboratory Characteristics of Children with Steroid Sensitive Nephrotic Syndrome	Shatha Hussain Ali, Iraq
05:30 - 05:40	Study the relation between BCG scar size and asthma in children?	Nada Ali AL-Ali-iraq
05:40 - 05:50	A Case-Series Analysis of Tuberculosis in Pediatric Patients Treated in Azadi Teaching Hospital in Kirkuk	Amal Laylani-iraq
05:50 - 6:00	The role of Anorectal Manometry in the diagnosis of Hirschsprung's disease in pediatric age group	Hawkar Ahmed Khayyat -iraq
6:00 - 6:10	Discussion	
End of day one		

Friday 23, February 2024

Day 2:		
First Session 08:30 - 10:20 Neonatology and Urology		
Chairman:	Colleen Kraft - Khalid Alyafai	
08:30 - 08:50	Preventive strategies of Bronchopulmonary Dysplasia	Sura Abd Alwahab, Iraq
08:50 - 09:1	NoPain NICU	Haidy Alwassia, KSA
09:10 - 09:30	CAKUT (Congenital anomalies of kidney and urinarytract)as a cause of childhood - Chronic kidney disease C - KD	Jameela Abduaziz Kari, KSA
09:30 - 09 :50	Pediatric Hypoglycemia, case studies	Azad Haleem Almezori, Iraq
09:50 - 10:10	 Almarai New era of infant nutrition technology	Mohammed Sallam - Egypt
10:10 - 10:20	Discussion	
10:20 - 10:40	Coffee Break	
Second Session 10:40 - 12:10 Infectious Disease		
Chairman:	Jameela Abduaziz Kari - Ibraheem Abosoudah -

Assistant Prof . Abeer Alnajjar KSA

She is Assistant Professor | Pediatrics Infectious Diseases Consultant | Head of Pediatrics Infectious Diseases Unit in King Abdulaziz University Hospital

I'm a medical professional whose expertise and dedication have contributed to the field of pediatrics infectious diseases. With a commitment to improving patient care, I'm holding roles at institutions and has earned recognition for my work.

Currently serving as an Assistant Professor and Pediatrics Infectious Diseases Consultant, I'm an integral part of the medical faculty at King Abdulaziz University Hospital. My passion for pediatric infectious diseases has led me to take the esteemed position of Head of Pediatrics Infectious Diseases Unit within the Pediatrics Department. In this capacity, I'm leading a team of talented healthcare professionals in providing cutting-edge care and advancing research of infectious diseases that affect children.

Beyond my academic and clinical roles, I'm the Head of Infection Control at BHG, and I have established the required infection prevention protocols in the hospital. I also established the standard for excellence in healthcare-associated infection management.

Moreover, I'm serving as the Head of the Pediatrics Department at BHG.

This dual role helped me to ensure high-quality care and effective collaboration among medical professionals.

Recognizing the critical importance of responsible antibiotic use, with my passion for antibiotic stewardship I become an advocate for this cause. My efforts encompass education, policy development, and research aimed at preserving the effectiveness of antibiotics and curbing antimicrobial resistance, for sake of patients and community wellbeing.

my career is characterized by my visionary leadership, outstanding clinical acumen, and profound commitment to elevating the standards of pediatric infectious diseases care.

Dr. Basim Attallah Abdelwahab Al-Abdely
Iraq

Prof. Colleen A. Kraft **USA**

She is Professor of Pediatrics at the Keck School of Medicine at the University of Southern California and attending physician at the Children's Hospital Los Angeles.

She is the 2018 Past President of the American Academy of Pediatrics. She received her undergraduate degree at Virginia Tech, her M.D. from Virginia Commonwealth University, and her MBA from the University of Cincinnati and residency in Pediatrics at Virginia Commonwealth University. Dr. Kraft's interests include the study of technology and its role in addressing health disparities and unconscious bias in children.

As President of the American Academy of Pediatrics in 2018, Dr. Kraft is best known for her advocacy for humane treatment of migrant children at the US-Mexico border.

Her explanation to the public regarding the harm to young children during the "Zero Tolerance" policy that included separation of children from parents at the border help to mobilize advocates across the political spectrum to end this policy. She continues to advocate for basic rights for children throughout the world.

Prof. Dler Abdulkhaleq Chalabi Iraq

He is Professor and Consultant Pediatrician at the Rapareen Teaching Hospital for pediatrics and Hawler Medical University in Erbil and currently serves as head of pediatric gastroenterology department in the hospital. Now he is full member of NASPGHAN and elected as international NASPGHAN committee member since 2023. Also member of WEO ,APSPGHAN ,Iraqi and Kurdistan pediatric society. He was former medical director of Erbil center in Kurdistan Board for medical specialization and served previously as head of pediatric department in medical college and in Rapareen Hospital.

Dr. Salah Al Awaidy Oman

He is Senior Consultant epidemiologist and Communicable Diseases Adviser in Health Affairs, Ministry of Health, Muscat, Oman

He is a medical doctor, and holds a Masters in Epidemiology. His current position is Senior Consultant epidemiologist and Communicable Disease Surveillance and Control Adviser at the Ministry of Health, Oman.

In the national arena in the Ministry of Health, he played a pivotal role in reducing the national under-five mortality and morbidity, preparedness, management and control of infectious diseases such as SARS, avian influenza and pH1N1, reducing mortality and morbidity of vaccine-preventable diseases for paediatric, adolescent and adult populations in Oman.

Under his leadership, Oman achieved polio-free, measles-free, rubella-free, dranculosis-free and CRS-free status, neonatal tetanus elimination and control and near elimination of hepatitis B and other vaccine-preventable diseases like TB and schistosomiasis.

In the international arena, Dr Al Awaidy has served on a number of important global advisory groups, namely the SAGE, Technical Advisory for Polio Eradication in Pakistan and Afghanistan, Strategic Advisory Group on Immunization, WHO Geneva, Strategic Advisory Group on Vaccine and Store Management Training Courses, IHR review committee, Strategic TB Advisory Board and the AIDS Regional Advisory Group, EMRO. He has also been a member of the GAVI Independent Review Committee since 2014. He currently serves on the IHR Emergency Committee for Polio. He has been a member of the polio Transient Independent Monitoring and the regional TAG for polio as well as a member of the EMR verification commission for hepatitis B and finally he is a chairperson for MENA-ISN association.

Assistant Prof. Saud Abdulaziz Bahaidarah KSA

He is an associate professor of Pediatrics at the Faculty of Medicine, King Abdulaziz University, and Intervention Pediatric Cardiology Consultant at King Abdulaziz University Hospital, Jeddah, Saudi Arabia. He was also awarded a master's degree in medical education.

He is currently a deputy head of the Pediatric Cardiac Center of Excellence at King Abdulaziz University

Member of Executive committee at Falathat charity organization (an organization caring for children's health) besides his participation in charity missions in Africa and Asia targeting cardiac procedures in pediatric patients with congenital defects

Dr. Sura Abd Alwahab
Iraq

MBCChB, FICMS Ped., CAB Neonatology

She is Consultant neonatologist / Children welfare teaching hospital and Nursing home hospital / medical city, Baghdad.

President of Iraqi pediatric society

Prof. Shatha Hussain Ali
Iraq

She is M. B. Ch. B, C.A.P.B

Objective: Nephrotic syndrome is a disorder of the kidneys that results from increased permeability of the glomerular filtration barrier. The aim of the study was to study the sociodemographic, clinical, and laboratory characteristics correlation with gender of children with steroid-sensitive nephrotic syndrome. **Methods:** A prospective observational study was conducted at the Nephrology Consultation Clinic, in Al-Immamain Al-Kadhmain Medical City, and the Central Child Teaching Hospital, Baghdad, Iraq, starting from January 1, 2022 till November 31, 2022. In this study, 60 patients were included and diagnosed as cases of steroid-sensitive nephrotic syndrome. **Results:** The total number was 60 patients (47 males and 13 females) with steroid-sensitive nephrotic syndrome. The mean age of the males at the time of the study (8.33 ± 3.54 years) and that of the females (6.85 ± 1.73 years) with a p-value of statistically significant 0.042. No gender statistical difference was detected between residency and socioeconomic status. The majority of the patients (42 males, 89.4% and 11 females, 84.6%) were responding to steroid therapy in less than 2 weeks, accordingly the difference between males and females was statistically not significant. The result was statistically not significant for asthma, urinary tract infection, and respiratory tract infection between both genders. The result was not statistically significant between males and females for body weight, height, and blood pressure. The median of serum IgE levels for males was 258 and for the females 145, with a significant difference (P-value 0.023). **Conclusions:** Younger age at presentation and higher serum IgE levels were statistically different between males' and females' children with nephrotic syndrome. Otherwise, no gender difference was detected comparing clinical and other laboratory characteristics.

Dr.Saif Ali
