# SPIDS Week 2023

## Welcome message

The Saudi Pediatric Infectious Diseases Society is proud to introduce the third annual scientific Conference, SPIDS 2023. The event will bring together local, regional, and international experts in the field of Pediatric Infectious Diseases who are going to discuss the hot topics in Pediatric Infectious Diseases and focus on the current issues and controversies in the field. The event is well-known to feature keynote lectures, debates, workshops, case scenarios, networking functions, and much more, all in an interactive and engaging environment. Our goal is to deliver a powerful, memorable, and rich learning experience. Take advantage of this opportunity and advance your knowledge in Pediatric Infectious Diseases. Book your seat today. We hope to see you all at PARK HYATT Hotel, Jeddah in September 2023.

Kind Regards,  
SPIDS Organizing Committee

## Key Benefits of attending :

- Learn from regional and international experts in Pediatric Infectious Diseases
- Review current issues, gain new insights, knowledge, and comprehension of various Pediatric Infectious Diseases topics
- Identify how to approach key issues, matters and common problem encountered in your daily practice
- Stay current and recognize the contemporary and ongoing issues in the field
- Share you experience, address your questions, and deliver your opinion
- Obtain CME points by attending this conference
- Collaborate and find work opportunities with people in the field
- Network and build relationships with key experts in the healthcare industry

## Who should attend :

- Infectious Diseases specialists and trainees
- Infection Control Specialists and providers
- Pediatricians and Pediatric trainees
- Family Medicine physicians and General Practitioners
- Clinical Pharmacists
- Microbiologists
